

BSH511L Series

Bench Scale for Dry Environment

BSH511L Series Bench Scale

BSH511L Series is the combination of ID511L Weighing Terminal and RH Series Mild Steel Platform. This unit is designed for dry and dusty environment. The economical and durable structure combined optional accessories can deal with extensive weighing task.

Features of BSH511L Series Bench Scale:

- * Terminal with stainless steel harsh enclosure, mild steel platform structure
- * Easy operation
- * Clear reading in dark area.
- * Fast response,high efficiency
- * Accurate weighing and reading
- * Broad range of weighing: 6kg~600kg
- * Output weight and records via computer
- * Auto print and print totalization

Specifications of BSH511L Series Bench Scale:

Model	Weight Range(kg)	Readability (kg)	Platform Size(mm)	Loadcell	Scale Stand Height(mm)		
BSH511L	6	0.002	300x300	L6N	330		
	15	0.005					
	30	0.01					
	60	0.02					
	BSH511L	30	0.01	400x400	L6E	330	
		60	0.02				
		150	0.05	500x500	L6E3	660	
		60	0.02				
		150	0.05	600x600	L6G	660	
		300	0.1				
	BSH511L	60	0.02	800x800	L6W	660	
		150	0.05				
		300	0.1	800x800	L6F	660	
		600	0.2				
BSH511L		6	0.002	240x300	L6N	330	
		15	0.005				
		30	0.01				
		60	0.02				
		BSH511L	30	0.01	300x400	L6E	330
			60	0.02			
	150		0.05	400x500	L6E3	660	
	60		0.02				
	150		0.05	460x600	L6G	660	
	300		0.1				
	BSH511L	60	0.02	600x800	L6W	660	
		150	0.05

		600	0.2				
150		0.05	600x800	L6F	660		
300		0.1					
600	0.2						

* Non-standard platforms & accessories can be customized

BSH511L Weighing Terminal

- * 200,000 display division
- * Two display range/two increment size
- * RS234/485(standard)
- * 1" display,green or red
- * MODBUS_RTU
- * Basic function: zero,tare,clear & print
- * Auto tare,auto clear,auto print
- * Print and totalization
- * X10/Over/Under/OK/Count/Animal weighing/Unit Switch
- * Auto save battery,battery indication
- * Auto Power Off
- * Over/Under/OK alarm output with relay output
- * External input for basic function
- * Power Input: 100~264VAC, ≤0.1A
- * Ni-MH battery group,GP 7.2VDC 3800mAh
- * Options:
- 1. 1 input/3 outputs(Relay)
- 2. RTC(real timing clock)

RH Series Mild Steel Platform

- * Powder-coated welded tubular steel construction and brushed stainless steel load plate (1.4301/AISI304).
- * Hermetically sealed aluminum load cell could provide an ingress protection of IP65.
- * Rugged & durable construction makes the platform suitable in heavy duty application.
- * Comprehensive product line with various weight ranges and platform sizes.
- * Multi-functions of load platform combined versatile accessories can meet your exact requirements.
